   The Graphic Designer's Guide to Portfolio Design Debbie Rose Myers,2011-11-03 This book is developed to provide students with everything they need to know to make the transition from design student to design professional It provides step by step instruction for creating professional portfolios both traditional and digital Interviewing tips sample resumes and cover letters and action verb lists help students prepare for their job search The second edition includes new sample portfolios robust case studies and updated information on digital portfolio trends and techniques   *Teaching Adult Learners* Jessica A. Curtis,2019-06-12 As adult instruction becomes a more common part of library practice librarians need guidance in an area that may not always have been a part of their library science education This book provides the instruction necessary to instruct adult patrons Presenting complex concepts and ideas in an easy to understand format this book applies learning theory to real life situations and provides a much needed resource for those responsible for or seeking to instruct adults in library settings The book introduces learning principles and techniques that will enhance your classes programs and one on one interactions as well as increase the memory retention of participants It will help you not only to promote learning but also to create positive library interactions and build retention Current library instructional and theoretical texts address instructional programming but do not explain how the instructor handles learning instruction differently for individuals general audiences and specific audiences or in passive situations such as through handouts or online interactions This guide differs from other works in that it addresses all adult services positions not only those with the title of instructional librarian and addresses the full scope of instruction that librarians need to better meet patron needs

   Folksonomies Isabella Peters,2009 Collaborative information services on Web 2 0 are used by Internet users to produce digital information resources and to furnish the contents of the resources with their own keywords so called tags This book deals with collaborative information services and folksonomies as a method of representing knowledge and a tool for information retrieval Collaborative information services on Web 2 0 are used by Internet users not only to produce digital information resources but also to furnish the contents of the resources with their own keywords so called tags Whilst doing so the user is not required to comply with rules as is necessary with a library catalogue The amount of user generated tags in a collaborative information service is referred to as folksonomy Folksonomies allow users to relocate their own resources and to search for other resources This book deals with collaborative information services and folksonomies both as a method of representing knowledge and a tool for information retrieval   *Minitutorials for Adobe Indesign* Susan Franz,2012-05-01 A quick reference for beginners and other busy people needing to gain skills in Adobe InDesign InDesign is the industry standard tool for digital and print publishing These minitutorials have a companion set of video tutorials that are available free on YouTube Topics covered include layout setup character and paragraph styles master pages numbering tables of contents drop caps books libraries and other key InDesign features The book features step by step tutorials a glossary of
