

Observation Checklist for Child's Development

Focuses on human interactions. Children will learn about objects by sense of touch, sounds, sight and smell. Physical movements also begin at this stage.

This is the stage when children start to speak. Thus, it is important for the parents to communicate with them more often. Teach them to say some words related to the objects they see.

Children start school at this stage. Parents have to set their schedule and help plan their daily routine to teach the importance of discipline.
