**Spelling It Out** Misty Adoniou, 2022-02-11 Spelling can be a source of anxiety for school children and working professionals alike Yet the spelling of words in English is not as random or chaotic as it is often perceived to be rather it is a system based on both meaning and a fascinating linguistic history Misty Adoniou s public articles on the processes of teaching and learning spelling have garnered an overwhelming response from concerned parents and teachers looking for effective solutions to the problems they face in teaching English spelling to children Spelling It Out Revised edition aims to ease anxiety and crush the myth that good spelling comes naturally Good spelling comes from good teaching Based on Misty Adoniou s extensive research into spelling learning and instruction this book encourages children and adults to nurture a curiosity about words discover their history and in so doing understand the logic behind the way they are spelled

**Structuring the Thesis** David Kember, Michael Corbett, 2018-07-23 The book is a collective investigation of the structuring of theses in education the social sciences and other disciplines that commonly do not follow the standard procedures of the scientific method To help research students design a structure for their own thesis and liberate their investigations from the constraints associated with the use of the conventional structure it explains how the structures adopted were designed to suit the topic methodology and paradigm It also provides a wide range of examples to draw upon which suit a broad spectrum of theory methodological approaches research methods and paradigms Additionally by analyzing the methodologies and paradigms and reviewing the methodological and paradigmatic spectrum it offers a significant contribution to the way research is conceptualized The book addresses a number of key questions faced by students supervisors and examiners Why do examiners often find it difficult to read work in non scientific disciplines when theses are structured in accordance with the conventional scientific method Why do students in non scientific disciplines struggle to write up the outcomes of their research in the conventional structure What alternative thesis structures can be devised to better suit the wide range of methods Which theories and paradigms are commonly followed in education and the social sciences and how do these perspectives influence the research process What methods theories and paradigms are commonly adopted by education and social science students and what problems do these pose when students write their theses
