Crown Minerals acquired 75 percent of Osceola Enterprises on March 22, 2005, for \$3,440,000. Osceola's book value at that date totaled \$4,000,000. Appraised values were greater than book value for identifiable intangible assets in the following amounts: intangibles \$1,000,000 and Plant and Equipment \$1,000,000. The purchase differential for Osceola is to be amortized over five months and Plant and Equipment over ten years. For the remainder of 2005 Osceola reported \$200,000 of income and paid \$1,000,000 in dividends. The following statements show the Crown as of December 31, 2005, and Osceola as March 22 and December 31, 2005.

English Mechanic and Mirror of Science ,1872      Exercises and Solutions in Statistical Theory Lawrence L. Kupper,Brian. H Neelon,Sean M. O'Brien,2013-06-24 Exercises and Solutions in Statistical Theory helps students and scientists obtain an in depth understanding of statistical theory by working on and reviewing solutions to interesting and challenging exercises of practical importance Unlike similar books this text incorporates many exercises that apply to real world settings and provides much more thorough solutions The exercises and selected detailed solutions cover from basic probability theory through to the theory of statistical inference Many of the exercises deal with important real life scenarios in areas such as medicine epidemiology actuarial science social science engineering physics chemistry biology environmental health and sports Several exercises illustrate the utility of study design strategies sampling from finite populations maximum likelihood asymptotic theory latent class analysis conditional inference regression analysis generalized linear models Bayesian analysis and other statistical topics The book also contains references to published books and articles that offer more information about the statistical concepts Designed as a supplement for advanced undergraduate and graduate courses this text is a valuable source of classroom examples homework problems and examination questions It is also useful for scientists interested in enhancing or refreshing their theoretical statistical skills The book improves readers comprehension of the principles of statistical theory and helps them see how the principles can be used in practice By mastering the theoretical statistical strategies necessary to solve the exercises readers will be prepared to successfully study even higher level statistical theory      Advances on Mechanics, Design Engineering and Manufacturing II Francisco Cavas-Martínez,Benoit Eynard,Francisco J. Fernández Cañavate,Daniel G. Fernández-Pacheco,Paz Morer,Vincenzo Nigrelli,2019-04-27 This book contains the papers presented at the International Joint Conference on Mechanics Design Engineering and Advanced Manufacturing JCM 2018 held on 20 22 June 2018 in Cartagena Spain It reports on cutting edge topics in product design and manufacturing such as industrial methods for integrated product and process design innovative design and computer aided design Further topics covered include virtual simulation and reverse engineering additive manufacturing product manufacturing engineering methods in medicine and education representation techniques and nautical aeronautics and aerospace design and modeling The book is divided into six main sections reflecting the focus and primary themes of the conference The contributions presented here will not only provide researchers engineers and experts in a range of industrial engineering subfields with extensive information to support their daily work they are also intended to stimulate new research directions advanced applications of the methods discussed and future interdisciplinary collaborations
