

Informational Interview Example

The following is an informational interview done by a student: Informational Interview #2

Tom J. Wong

Self-employed museum exhibition designer

What things do you do each day?

I interview clients who usually represent a museum e.g. a curator . After the client has stated their particular design problem, I analyze-the problem from a variety of perspectives. The primary objective of museum display is preservation of the object. Design and display are secondary to this. With this in mind, I take into consideration physical requirements, lighting, equipment like computers or videos, construction factors like partitions and walls, display cases, colors and label display.

Along with all of these considerations, I have to factor in a budget as defined by the client. Sometimes, too, I have to consider things like shipping if the show is a traveling one and the display cases are going with the objects.

How were you trained for this career?

I received my undergraduate degree in Fine Arts and then received my masters in Architecture although now the same school M.I.T. (Massachusetts Institute of Technology) is calling the discipline Visual Studies. I continue my education by taking classes at the Massachusetts College of Art and by doing computer workshops at the media lab. at M.I.T.

I did purely architectural work at first and then started to bid on museum design work. I worked at the Boston Museum of Fine art for over 25 years on a contract basis. I also have done work for the Peabody Museum at Harvard and some of the other art museums around Boston. I also design special retail exhibits or shows like the Fuller Cadillac showroom.
