Lesson 2: Population Growth and Trends

Review Questions

Directions: Read each main idea and then complete the statements below. Refer to your textbook as you write the answers.

A. Population in the United States

Main Idea: The census is a count and analysis of the U.S. population. It examines the number of people living in the United States, where they live, their income, and other key factors that help guide government policies.

1. The _____ of the United States requires the government to periodically take a _____, which is an official count of all the people living in the country and their place of _____.
2. The Census Bureau uses the _____ as its primary survey unit and classifies its data into categories like _____ and rural population.
3. In the United States, the rate of population growth is slowly _____, and there has been a steady trend toward _____ households.
4. Because it takes a long time to plan and construct a country's _____, it is important to understand changes in migration and _____ population trends.

B. Projected Population Trends

Main Idea: Changes in the type and number of different population groups help the government allocate resources and anticipate problems or changing circumstances. Immigration and the age structure of the nation's population are two such significant indicators.

1. A population _____ is a diagram that shows the population by age group and _____.
2. People born during the baby _____ that occurred after World War II make up a large segment of the population, and as they age it is changing the _____ ratio.
