Merak[™] Peep economic evaluation and decline analysis software offers industry-leading functionalities and services modeling capabilities that combine the technical skills of petroleum engineers and geoscientists with the financial foresight of economists for better E&P business decisions.

Evaluation of project economics to reduce risk

Merak Peep workflows — created for petroleum engineers, geoscientists, and economists — offer standard practices based on 30 years of global industry experience. All key inputs into project economics can be captured, stored, and modeled in a secure and standardized enterprise solution — customizable to the corporate environment. You can understand the complete asset value on a case-by-case and on a consolidated basis with the ability to do look-ahead and look-back assessments. Mitigate risk by examining multiple scenarios, performing uncertainty analysis, and analyzing statistical outcomes using the Merak Decision Tool Kit.

Standardization across the enterprise

Merak Peep enables you to have confidence in your valuations across the organization. Using common price forecasts, inflation and currency exchange rates, discount rates, and discount methods ensures that everyone in your organization uses the same assumptions. In addition, to suit each unique commercial modeling requirement, the Merak software's Fiscal Model Library (FML) provides more than 200 international fiscal models to help you efficiently evaluate brownfields, greenfields, mergers and acquisitions, and new business ventures in a standardized way. The FML provides researched, transparent, and auditable models that are updated regularly. Alternatively, you can create your own custom models.

Use Merak Peep with the Merak software's Fiscal Model Library to generate a complete suite of reports that detail every calculation for the project, contractor, company, and partner and build customized reports to address specific needs.
