CONTROLS

Driver side fig. 93

On the driver's door panel are set the buttons for controlling, with ignition key at **ON**:

- A** front left window opening/closing; window opening or closing in "automatic continuous" mode;
- B** front right window opening/closing; window opening or closing in "automatic continuous" mode;
- C** rear left window opening/closing; "automatic continuous" mode operation just during window opening;

- D** rear right window opening/closing; "automatic continuous" mode operation just during window opening;
- E** rear power window enabling/disabling control.

WARNING

Improper use of the power windows can be dangerous. Before and during its operation ensure that any passengers are not at risk from the moving glass either by personal objects getting caught in the mechanism or by being injured by it directly. Always remove the ignition key when getting out of the car to prevent the power windows being operated accidentally and constituting a danger to the passengers in the car.

Pressing briefly one of the buttons the window "jerks" whereas a prolonged pressing makes the window opening or closing in "automatic continuous" mode.

Pressing the button again will stop the window in the required position.
