What Every Student Should Know about Citing Sources with MLA Documentation Michael Greer, 2007 *What Every Student Should Know About Citing Sources with MLA Documentation* provides specific instructions on writing and referencing in the Modern Language Association MLA style. It offers a comprehensive listing of in-text and works-cited models for a wide variety of print, electronic, and online sources. Included too are frequently asked questions about MLA style and guidelines for formatting research papers. The *What Every Student Should Know About* series is a collection of guidebooks designed to help students with specific topics that are important in a number of different college courses. Instructors can package any one of these booklets with their Allyn Bacon Longman textbook for no additional charge or the booklets can be purchased separately. Consult your local Allyn Bacon Longman representative for more details. *MLA* Peggy M. Houghton, Timothy J. Houghton, Michele M. Pratt, 2009. The Modern Language Association MLA has established a complete handbook for writing research papers required by many academic institutions throughout the United States and the world. The *MLA Handbook for Writers of Research Papers*, 7th Edition, is an accepted format used by many academic and nonacademic institutions and publications. However, this highly regarded manual is not specifically geared toward scholarly academic writing, especially term papers. The authors of this book draw information from the manual that is specific to academic writing and expand upon it using document set-up instructions and a sample paper. This book clarifies many detailed specifications of MLA style. Frequently used aspects of MLA style citation and referencing are addressed in a simple format that allows researchers to focus on content instead of mechanics and style. **The Wadsworth Guide to MLA Documentation** Linda Smoak Schwartz, 2004. This concise guide to the most commonly used kinds of MLA citations, now with the latest 2003 updates, is brief enough to be used as a supplement to a handbook or literature anthology yet comprehensive enough to address all of the documentation issues students might encounter. *A Concise Guide to MLA Style and Documentation* Thomas Fasano, 2009. *A CONCISE GUIDE TO MLA STYLE AND DOCUMENTATION* is an affordable and classroom-tested resource that provides only the information students need most often and, according to the author's own students, is easier to use than the actual MLA Handbook. This edition incorporates several major changes from the new MLA Handbook, Seventh Edition. It also has a two-color design, a numbering system, and an index to help students find information quickly and easily. Here, students will discover useful advice on gathering sources, compiling notes, summarizing, paraphrasing, quoting properly, and avoiding plagiarism. **MLA Made Easy** Marilyn Heath, 2009-12-30. A concise, handy guidebook for teaching correct MLA style citation to middle and high school researchers. *MLA Made Easy: Citation Basics for Beginners* offers an effective way to introduce proper research citing to those who are new to research and the MLA style. Full of examples and practical tips, it provides teachers with everything they need to help even the most reluctant middle and high school student researchers create accurate, complete citations in the MLA format. *MLA Made Easy* includes instructions

and examples for citing all common sources from reference books to websites as well as online databases magazines interviews and videos Coverage is divided into three parts how to create citations for the works cited page parenthetical documentation and research paper formatting Based on the 2009 revision of the MLA Handbook it offers clear precise and up to date guidelines for showing students in their formative research experiences the importance of correctly citing their sources *A Guide to MLA Documentation* Joseph F. **The MLA Style of Documentation** Michael Pringle,John Gonzales,2009 A pocket guide to the MLA Style of Documentation for collegiate writing Explains the meaning of plagiarism along with some examples and how to find and evaluate resources Also discusses how to cite sources in academic writing and how to create a works cited page in behalf of books magazines non print sources and web and electronic publications **The Wadsworth Guide to MLA**
