REBAR Cutter Assembly REA

Multi-Purpose Assembly for M16 / M4 Type Weapons

Purpose

The purpose of the REA Rebar Elimination Attachment is to provide the combat soldier, or tactical team police officer, an accessory to attach to the current flash suppressors with a multi-functional combat enhancement to his service rifle.

The REA will provide the user with several options that are not now currently available with the in-service flash suppressors currently employed. The following is a list that describes the multi-functional uses for the device:

- As a rebar cutter to support the clearing of rebar up to 3/4" after breaching a concrete and/or cinder block wall that is reinforced with up to 3/4" rebar. It may also be used against solid windows, chains and door security bars up to 3/4".
- As a supplement to close quarter combat, close quarter battle techniques. It is an enhancement tool when dealing with non-compliant violent personnel who do not present a lethal threat to the soldier or officer.
- As a "less than lethal" bayonet to support crowd control or riot control operations. It's a great "people mover".
