therefore requires a careful examination of the interrelationship between accountants and accounting techniques on the one hand and on the other the social and economic context within which changes took place The book s corporate coverage starts with the legendary East India Company created in 1600 and continues through the heyday of the statutory trading companies founded to build Britain s canals commencing in the 1770s and railways commencing c 1829 to focus principally on the limited liability company fashioned by the Joint Stock Companies Act 1844 and the Limited Liability Act 1855 The story terminates in 2005 when listed companies were required to prepare their consolidated accounts in accordance with International Financial Reporting Standards thus signalling the effective end of British accounting **ICAEW ACA**
