Accounting From the Outside (RLE Accounting) Tony Hopwood, 2013-11-26 The 43 papers in this collection originally published from 1972 to 1987 delve into accounting observing and exploring its functioning They construct a basis for interrogating it in use and indeed they attempt to account for accounting The author seeks to understand accounting to appreciate what it is what it does and how it does it examining it from without rather than from within

Re-Imagining Sovereign Debt in International Law through the lens of Socio-Economic Rights Muhammad Bello, 2024-07-22 Re imagining sovereign debt examines the extent to which sovereign debtors contractual obligations may be honoured where the socio economic rights of their citizens face clear danger of non realisation It critiques the foundational legal paradigm that influences and shapes the substance of the sovereign debt regime In doing this the author employs legal theory to show the inadequacies of the regime in terms of its failure to embrace the dynamism of sovereign debt which he characterises as a debt with a complex mix of public private elements hybridity of norms and multiplicity of interests beyond the two sided creditor debtor matrix By locating socio economic rights in all critical phases of the regime the author shows that the recurring circles of debt crises are linked to the continuing influence of the private law paradigm The book offers a fresh perspective to re imagine sovereign debt using insights from transnational legal theorists and advocates prioritising socio economic rights considerations in debt contracting

restructuring and adjudication through a more concrete recognition of creditors responsibilities Re imagining sovereign debt will interest lawyers policymakers diplomats scholars and researchers interested in the law history and politics of sovereign debt
