Integrating Machine Learning Into HPC-Based Simulations and Analytics Ben Youssef, Belgacem,Ben Ismail, Mohamed Maher,2024-12-13

Researchers are increasingly using machine learning ML models to analyze data and simulate complex systems and phenomena Small scale computing systems used for training validation and testing of these ML models are no longer sufficient for grand challenge problems characterized by large volumes of data generated at a much higher rate than before surpassing by far the computing capabilities currently available in many cyberinfrastructure platforms By associating high performance computing HPC with ML environments scientists and engineers would be able to enhance not only the

scalability but also the performance of their predictive ML models The Handbook of Research on Integrating Machine Learning Into HPC Based Simulations and Analytics presents recent research efforts in designing and using ML techniques on HPC systems and discusses some of the results achieved thus far by cutting edge relevant contributions Covering topics such as data analytics deep learning and networking this major reference work is ideal for computer scientists academicians engineers researchers scholars practitioners librarians instructors and students Held at a Distance Rebecca G.
