Golvo 9000 LowBase

Product Description

Golvo 9000 mobile lifts have a unique design, available in two models. Both models are an excellent aid for daily transfer of adults and children.

The LowBase model has extra low base for use in combination with bed frames or other equipment where space for the lift base is limited.

Individual fitting of Liko slings and other Liko lifting accessories to meet the patient need is of the utmost importance for optimal performance and safety when using the lift.

In this document, the person being lifted is referred to as the patient, and the person helping them is referred to as the caregiver.

IMPORTANT!

Lifting and transferring a patient always involves a certain level of risk. Read the instructions for use for both the patient lift and lifting accessories before use. It is important to completely understand the contents of the instructions for use. The equipment should only be used by trained personnel. Ensure that the lifting accessories are suitable for the lift used. Exercise care and caution during use. As a caregiver, you are always responsible for the patient's safety. You must be aware of the patient's ability to make it through the lifting situation. If something is unclear, contact the manufacturer or supplier.
