Matthieu Ricard, 2016-10-04 A powerful and wide ranging indictment of the treatment of animals by humans and an eloquent plea for animal rights Every cow just wants to be happy Every chicken just wants to be free Every bear dog or mouse experiences sorrow and feels pain as intensely as any of us humans do In a compelling appeal to reason and human kindness Matthieu Ricard here takes the arguments from his best sellers Altruism and Happiness to their logical conclusion that compassion toward all beings including our fellow animals is a moral obligation and the direction toward which any enlightened society must aspire He chronicles the appalling sufferings of the animals we eat wear and use for adornment or entertainment and submits every traditional justification for their exploitation to scientific evidence and moral scrutiny What arises is an unambiguous and powerful ethical imperative for treating all of the animals with whom we share this planet with respect and compassion Bitch Esther Ménévis, Lucy Cooke, 2024-02-28 Palmar s Les 100 livres de l ann e 2024 Lire

**The Bonobo and the Atheist** Frans de Waal, 2014-03-11 In this lively and illuminating discussion of his landmark research esteemed primatologist Frans de Waal argues that human morality is not imposed from above but instead comes from within Moral behavior does not begin and end with religion but is in fact a product of evolution For many years de Waal has observed chimpanzees soothe distressed neighbors and bonobos share their food Now he delivers fascinating fresh evidence for the seeds of ethical behavior in primate societies that further cements the case for the biological origins of human fairness Interweaving vivid tales from the animal kingdom with thoughtful philosophical analysis de Waal seeks a bottom up explanation of morality that emphasizes our connection with animals In doing so de Waal explores for the first time the implications of his work for our understanding of modern religion Whatever the role of religious moral imperatives he sees it as a Johnny come lately role that emerged only as an addition to our natural instincts for cooperation and empathy But unlike the dogmatic neo atheist of his book s title de Waal does not scorn religion per se Instead he draws on the long tradition of humanism exemplified by the painter Hieronymus Bosch and asks reflective readers to consider these issues from a positive perspective What role if any does religion play for a well functioning society today And where can believers and nonbelievers alike find the inspiration to lead a good life Rich with cultural references and anecdotes of primate behavior *The Bonobo and the Atheist* engagingly builds a unique argument grounded in evolutionary biology and moral philosophy Ever a pioneering thinker de Waal delivers a heartening and inclusive new perspective on human nature and our struggle to find purpose in our lives
