Le Jardin Dacclimatation:

Le jardin d'acclimation d'Orotave à Ténérife Léopold marquis de Folin, 1884 Zoo Eric Baratay, Elisabeth Hardouin-Fugier, 2004 Wild animals have fascinated human observers since time immemorial The story of our interest in collecting classifying and dominating Nature so that its inner workings could be understood also looms large in the history of science and thus it is surprising that the history of menageries zoological gardens and the zoo as we know it today has been so poorly documented This gap is addressed by Zoo a comprehensive history of the zoo in the Western world Imperial Premises Kevin Coffee, 2025-11-17 Colonial capital and imperialism have shaped and redefined built environments in both metropole and periphery Apparitions of trans Atlantic colonialism and neo colonialism haunt those societies and bound an important field of ideological and political contest repudiation and resistance Most of those actions have targeted commemorative monuments object collections and museum interpretation Below and beyond those blatant ideological examples of imperialism however are the landscapes and structures that reinforce a habitus of imperial life inferring rather than explicitly declaring its hegemony This collection of historical archaeological studies centered in the long nineteenth century examines and reinterprets a series of architectural remnants structures and landscapes that continue to ideologically reinforce neo colonial social and power asymmetries Examples include the failing Spanish mission and colony in New Spain the bombastic reconstruction of imperial Paris the nascent imperium centered in an expanding New York City the failed cooperative utopia of the Oneida religious community and the wide area effects of early industrialization in New England

Writing the North of the North / L'Écriture du Nord du Nord / Den Norden des Nordens (be-)schreiben Annie Bourguignon, Konrad Harrer, 2019-11-29 The expression North of the North refers both to an objective geographical reality the territories situated at the highest latitudes on our planet and to a subjective mental construction which came into being many centuries ago and has been developed modified and differentiated ever since The chapters in the present volume examine various aspects of that concept analysing texts and works of art from a range of regions and periods La notion de Nord du Nord renvoie tout autant la réalité géographique objective que sont les territoires des latitudes les plus élevées de notre planète qu'une construction mentale subjective qui s'est constituée et modifiée au cours du temps Les contributions du présent volume se proposent d'en explorer les multiples facettes en recourant des textes et œuvres d'art d'époques et de provenances diverses Der Begriff Norden des Nordens verweist sowohl auf eine objektive geographische Wirklichkeit nämlich die in den höchsten Breitengraden unseres Planeten gelegenen Territorien als auch auf eine subjektive mentale Konstruktion die im Laufe der Zeiten entstanden ist sich fortentwickelt und ausdifferenziert hat Die im vorliegenden Band enthaltenen Beiträge erforschen die vielfältigen Facetten dieses Begriffs anhand von Texten und Kunstwerken aus verschiedenen Regionen und Epochen **Fabrics of Anthropological Knowledge** Hande Birkalan-Gedik, Fabiana

Dimpflmeier,2025-07-01 Weaving together a collection of original essays this book looks at the transnational circulations of people concepts and practices in anthropology revealing the many ways that they cross borders The essays focus on European anthropological traditions and beyond including broader transnational interactions to uncover the intricate fabrics of interconnected influences that have shaped anthropology By presenting these diverse threads the volume challenges the notion of singular separated traditions of anthropology and demonstrates how the field has been shaped by a rich plurality of transnational connections negotiations and entanglements in the past and today

The Strange M. Proust Andre Benhaim,2017-07-05 The strange M Proust the narrator the author and the embodiment of A la Recherche du Temps perdu is now so canonical a writer that his very strangeness is easily overlooked His book made of other books his epic composed of extraordinary miniatures his orderly structure where every law is subverted his chronology where time can be undone and his geography where places can superimpose in these and many other ways Proust continues to astonish even readers who have engaged with him for their entire careers In this book arising from the Princeton symposium of 2006 major critics come together to offer provocative readings of a work which is at the same time classical and unusual French and foreign familiar and strange The book is dedicated to the memory of Malcolm Bowie 1943 2007 whose keynote address was one of his last major lectures Other contributors include David Ellison Anne Simon Eugene Nicole Joseph Brami Raymonde Coudert Christie McDonald Michael Wood and Antoine Compagnon
