Adolescent Group Therapy George R. Holmes, Robert V. Heckel, Lucille Gordon, 1991-09-30. This book offers a health oriented integrative approach to adolescent group therapy. George R. Holmes and his associates believe that promoting social competency in each adolescent group member is central to successful therapy. The enablement of interpersonal skills neutralizes the environmentally sponsored psychopathology that adolescents use to survive. The authors also emphasize the co therapy relationship. They offer recommendations for supervising trainee therapists and for applying their model to other contexts such as high schools. The authors discuss strategies developed in their clinical work covering such issues as scapegoating, silence and withdrawal. They explore how processes, roles and meaningful issues change over the life of the group. Social competency should be the main focus; they argue it is essential to nurturing self parenting skills and a healthy identity. The co therapy relationship, the interaction between co therapists and among co therapists and group members also greatly determines therapeutic change. The book includes recommendations for supervising trainee therapists and for applying this model to other contexts such as high schools. *Adolescent Group Therapy* will be of interest to students and to teachers and professionals in psychology, counseling, vocational rehabilitation, social work, nursing, education and child and adolescent psychiatry.
