English Language Research Paper:

From Data to Evidence in English Language Research Carla Suhr, Terttu Nevalainen, Irma Taavitsainen, 2019-01-07 From Data to Evidence in English Language Research draws on diverse digital data sources alongside more traditional linguistic corpora to offer new insights into the ways in which they can be used to extend and re-evaluate research questions in English linguistics. This is achieved for example by increasing data size, adding multi-layered contextual analyses, applying methods from adjacent fields, and adapting existing data sets to new uses. Making innovative contributions to digital linguistics, the chapters in the volume apply a combination of methods to the increasing amount of digital data available to researchers to show how this data, both established and newly available, can be utilized, enriched, and rethought to provide new evidence for developments in the English language.

Approaching English Language Research Desmond Allison, 2002 This book is designed to help students and other interested readers approach research in English Language studies. Its concerns include project dissertation and thesis research and writing.

English for Research Publication Purposes Karen Englander, James Corcoran, 2019-02-21 Scholars who use English as an additional language confront challenges when disseminating their research in the global market of knowledge production dominated by English. *English for Research Publication Purposes* analyses the experiences and practices of these scholars across the globe and presents critical plurilingual pedagogies as a theoretically and empirically informed means of supporting them. This book draws on an empirical study of a Latin American university's effort to mount a course that provides support to emerging and established scholars who use English as an additional language. Brings theoretically informed discussions of critical pedagogies, plurilingualism, and identity affirmation to better serve plurilingual scholars who seek to publish their research in English language journals. Provides examples of classroom activities that can be adapted and adopted to local contexts and realities in a curriculum based on critical plurilingual pedagogies. Proposes future directions for research into the internationally urgent, growing concerns of global scholars who produce English-medium academic knowledge for the world stage. Incisive and cutting-edge. *English for Research Publication Purposes* will be key reading for academics and upper-level students working in the areas of ESP, EAP, ERPP, and Applied Linguistics.

Research Methods for English Language Teachers Jo McDonough, Steven McDonough, 2014-05-12 This book offers a lively introduction to the research methods and techniques available to English language teachers who wish to investigate aspects of their own practice. It covers qualitative and quantitative methodology and includes sections on observation, introspection, diary studies, experiments, interviews, questionnaires, numerical techniques, and case study research. Each method is illustrated with examples in language teaching contexts, and techniques of data collection and analysis are introduced. The authors focus particularly on research in the classroom, on tests, materials, the effects of innovations, and they discuss methods appropriate to research in various collaborative modes, as well as by individuals. A key feature of the book is an introduction to the debate surrounding different approaches to research with an

evaluation of traditional research in relation to the paradigms associated with reflective practice and action research The book is ideal for teachers on initial training and post experience courses students on degree programmes in applied linguistics and TEFL and of course practising teachers with an interest in research methods in language teaching

Innovation in English Language Teaching David Hall, Ann Hewings, 2013-10-18 This reader provides both theoretical perspectives and practical tools for analysing and understanding how ELT classroom curricula can be analysed developed and evaluated The commissioned and classic texts place curriculum change in a philosophical framework and also explore the political and institutional considerations A series of case studies are provided to highlight both the role of the teacher in curriculum innovation and various processes of planning and implementation The final section deals with evaluating curriculum and syllabus change

English Language Teaching and its Impact on Cultural Identity of High School Students in Morocco. A Case Study at the Lycée Mohammed VI d'Excellence Adil Faouzi, 2023-08-23 Bachelor Thesis from the year 2023 in the subject English Language and Literature Studies Culture and Applied Geography grade 16 20 Sultan Moulay Sliman University Ecole Sup rieur de l Education et de la Formation course Immersion internship in the school 2 and Research Paper PFE language English abstract This thesis investigates the influence of English language teaching as a language of globalization on the cultural identity of high school students in Morocco Against a backdrop of a complex linguistic landscape this study navigates the intricacies of language culture and education aiming to contribute to the ongoing discourse surrounding the role of English in a globally connected world A mixed methods approach comprising a questionnaire for students and interviews with teachers from Le Lyc e Mohammed VI d Excellence in Morocco is utilized for a comprehensive exploration of the research question While the majority of students reported no direct impact of English language teaching on their cultural identity a subtle layered influence was observed through their adoption of Western cultural norms On the other hand teachers displayed an acute awareness of the significant influence of globalization on teaching English emphasizing the intricate link between language and culture They highlighted the role of English as a conduit for intercultural communication and as a critical tool for fostering cultural understanding The findings signal both challenges and opportunities reinforcing the essential role of teachers in facilitating language learning and intercultural competence in an interconnected educational landscape This monograph underscores the need for further research to delve into the subtleties of students perceptions and to navigate the complexities inherent in teaching English in a globalized environment ultimately aiming to offer empirical and theoretical contributions that inform policy and practice in the field of English language teaching
