Military Skills Development System 2016 Intake:

South Africa's Post-Apartheid Military Lindy Heineken, 2020-01-01 This timely book examines how the South African National Defence Force has adapted to the country's new security political and social environment since 1994. In South Africa's changed political state, how has civilian control of the military been implemented and what does this mean for defence in a democracy? This book presents an overview of the security environment, how the mission focus of the military has changed and the implications for force procurement, force preparation, force employment and force sustainability. The author addresses other issues such as the effect of integrating former revolutionary soldiers into a professional armed force, the effect of affirmative action on meritocracy, recruitment and retention, military veterans looking at the difficulties they face in reintegrating back into society and finding gainful employment, gender equality and mainstreaming, the rise of military unions and why a confrontational instead of a more corporatist approach to labour relations has emerged, HIV/AIDS and the consequences this holds for the military in terms of its operational effectiveness. In closing, the author highlights key events that have caused the SANDF to become lost in transition and transformation, spelling out some lessons learned. The conclusions she draws are pertinent for the future of defence security and civil-military relations of countries around the world. *Annual Report South Africa. Department of Defence, 2016*

[Evaluation of PEPFAR's Contribution \(2012-2017\) to Rwanda's Human Resources for Health Program](#) National Academies of Sciences, Engineering, and Medicine, Health and Medicine Division, Board on Global Health, Committee on the Evaluation of Strengthening Human Resources for Health Capacity in the Republic of Rwanda Under the President's Emergency Plan for AIDS Relief (PEPFAR), 2020-06-22 Since 2004 the U.S. government has supported the global response to HIV/AIDS through the President's Emergency Plan for AIDS Relief (PEPFAR). The Republic of Rwanda, a PEPFAR partner country since the initiative began, has made gains in its HIV response including increased access to and coverage of antiretroviral therapy and decreased HIV prevalence. However, a persistent shortage in human resources for health (HRH) affects the health of people living with HIV and the entire Rwandan population. Recognizing HRH capabilities as a foundational challenge for the health system and the response to HIV, the Government of Rwanda worked with PEPFAR and other partners to develop a program to strengthen institutional capacity in health professional education and thereby increase the production of high-quality health workers. The program was fully managed by the Government of Rwanda and was designed to run from 2011 through 2019. PEPFAR initiated funding in 2012. In 2015, PEPFAR adopted a new strategy focused on high-burden geographic areas and key populations, resulting in a reconfiguration of its HIV portfolio in Rwanda and a decision to cease funding the program, which was determined no longer core to its programming strategy. The last disbursement for the program from PEPFAR was in 2017. *Evaluation of PEPFAR's Contribution 2012-2017 to Rwanda's Human Resources for Health Program* describes PEPFAR-supported HRH activities in Rwanda in relation to programmatic priorities, outputs and outcomes and examines to the extent feasible the impact on HRH.

and HIV related outcomes The HRH Program more than tripled the country's physician specialist workforce and produced major increases in the numbers and qualifications of nurses and midwives Partnerships between U S institutions and the University of Rwanda introduced new programs upgraded curricula and improved the quality of teaching and training for health professionals Growing the number skills and competencies of health workers contributed to direct and indirect improvements in the quality of HIV care Based on the successes and challenges of the HRH program the report recommends that future investments in health professional education be designed within a more comprehensive approach to human resources for health and institutional capacity building which would strengthen the health system to meet both HIV specific and more general health needs The recommendations offer an aspirational framework to reimagine how partnerships are formed how investments are made and how the effects of those investments are documented
