

LEARNING GENRES FANTASY

The fantasy genre is a type of fiction. Fantasy stories cannot happen in the real world—they are purely imaginary. Fantasy stories include make-believe animals, magic, monsters and other things that do not exist in our reality. They can take place in the past, present or future, but usually do not take place on Earth (at least not the Earth we are familiar with). Many beloved childhood series such as *Lord of the Rings* are great examples of the fantasy genre. Can you think of any others?

C.S. Lewis: Lewis was a British fantasy writer. He was a contemporary and friend of Tolkien and wrote the *Chronicles of Narnia* series.

"But what does it all mean?" asked Susan when they were somewhat calmer.

"It means," said Aslan, "that though the Witch knew the Deep Magic, there is a magic deeper still which she did not know. Her knowledge goes back only to the dawn of Time. But if she could have looked a little further back, into the stillness and the darkness before Time dawned, she would have read there a different incantation. She would have known that when a willing victim who had committed no treachery was killed in a traitor's stead, the Table would crack and Death itself would start working backwards."

-*The Lion, The Witch, and the Wardrobe* (1950)

Name some of the words and elements of this quote that tell you it is fantasy.
