representations of Asian Americans in textbooks and teacher manuals used in our elementary and secondary schools
poignantly tell us that generations of children are growing up being fed this single story about Asian Americans As Hartlep

Dissent looks at the implications of new forms of dissent for educational practice The reappearance of dissent in political

meetings and street protests opens new possibilities for improved democratic life and citizen participation This book argues that this possibility will not be fulfilled if schools do not cultivate the skills necessary for our citizens to engage in political dissent The authors look at how practices in schools such as the testing regime and the hidden curriculum suppress students ability to voice ideas that stand in opposition to the status quo Teaching for Dissent calls for a realignment of the curriculum and the practices of schooling with a guiding vision of democratic participation
