Embu Uni 2015 Intake:

Thus Until Emilia Ilieva, Reuben Matheka, 2025-08-04 *Thus Until A History of Egerton University* is a thorough historical chronological and well researched account of Egerton University from a whites only college when it started in 1939 through to the expansion it has experienced over the years culminating in being a full university More than any other university in Kenya Egerton has a long and colourful history but like all the other universities it has suffered from the political economic and financial challenges of the time especially since the double intake of the 1990s Chapter One provides the required background to the study highlighting agricultural and educational policies and steering away from the Happy Valley hype so characteristic of the period The reader will learn about the Egerton family in Chapter Two and particularly about Lord Egerton himself and the colonial circumstances within which he lived The chapter dispels some of the popularly held myths about him Chapter Three deals with the beginnings of the college and the various structural and curriculum experiments tried out and the kind of enrolment and students it experimented with as an all white establishment The chapter ends with Africans beginning to agitate for change With great attention to detail the later chapters put the university in a broader local and international context thereby increasing its relevance to society *A History of Egerton University* though heavily footnoted and with a detailed bibliography is written in a simple easy flowing and accessible style

Environmental Resilience and Sustainable Agri-food System Management Song Wang, Juan Lu, Yifang Liu, Jason Grant, 2025-12-05 The world is grappling with severe environmental degradation making environmental resilience a critical priority Climate change intensifies this challenge with rising temperatures shifting weather patterns and extreme weather events threatening ecosystems and food security In the agricultural sector environmental pollution has worsened recently contributing to soil degradation water contamination and biodiversity loss Restoring the environment and enhancing agricultural resilience is crucial for sustainable agriculture Addressing these challenges requires integrating environmental resilience with sustainable practices to create agri food systems that are economically viable and resilient to climate change This Research Topic aims to develop economically viable strategies that enhance the resilience of agri food systems to environmental changes while promoting sustainable resource use and ecological balance By focusing on effective methods to improve environmental resilience we seek to create agri food systems that are both profitable and capable of withstanding the challenges posed by climate change Ultimately enhancing environmental resilience is crucial for increasing agricultural sustainability and ensuring a stable food supply in the face of a changing climate High quality Original Research and Review articles in this field are all welcome for submission to this Research Topic Research interests include but are not limited to the following areas Enhancing environmental resilience in Agri food Systems Policy and innovative mechanisms for resilient and sustainable Agriculture Ecological restoration and biodiversity conservation in Agri ecosystems Policy optimization and innovative mechanism towards a resilient Agri food System Climate change mitigation and adaptation in agricultural practices Sustainable
