**Records & Briefs New York State Appellate Division , Digital Healing** Marc Ringel,2018-06-14 Medical practice and research are inconceivable today without electronic computing and communication tools Digital machines do many tasks orders of magnitude better faster and more accurately than humans Still there are functions critical to the healthcare endeavor that people do much better than machines things like understanding and using natural language perceiving what is unexpressed taking into account values culture ethics and human relationships touching and healing For the foreseeable future the smartest computers will be no match for human beings when it comes to performing these most anthropic functions American healthcare is at a critical juncture Providers and patients are increasingly frustrated by degradation of the human relationships that lie at the core of the medical practice Technologies such as the computerized medical record get much of the blame for intrusion into the patient provider relationship However it is not technology itself that is to blame The fault lies with how systems are conceived designed and deployed This book analyzes how to organize the work of healthcare in a way that uses machines to do what they do best thereby freeing humans to do what we do best Smart use of electronic technology is crucial to the success of any bid to fulfill the Institute for Healthcare Improvement s triple aim to make healthcare more effective efficient and humane *Records and Briefs New York State Appellate Division ,*

Unintended Consequences of Electronic Medical Records Barbara Cook Overton,2019-12-13 Unintended Consequences of Electronic Medical Records An Emergency Room Ethnography argues that while electronic medical records EMRs were supposed to improve health care delivery EMRs unintended consequences have affected emergency medicine providers and patients in alarming ways Higher healthcare costs decreased physician productivity increased provider burnout lower levels of patient satisfaction and more medical mistakes are just a few of the consequences Barbara Cook Overton observes while studying one emergency room s EMR adoption With data collected over six years Overton demonstrates how EMRs harm health care organizations and thrust providers into the midst of incompatible rule systems without appropriate strategies for coping with these challenges thus robbing them of agency Using structuration theory and its derivatives to frame her analysis Overton explores the ways providers communicatively and performatively receive and manage EMRs in emergency rooms Scholars of communication and medicine will find this book particularly useful *Records & Briefs , New York Court of Appeals.
