Restoring the Promise Richard K. Vedder,2019-05-01 Higher education in America is in crisis Costs are too high learning is too little and the payoff to students and society is increasingly problematic In Restoring the Promise Richard Vedder shows how the precarious position of colleges and universities results from a mostly unsuccessful expansion of governmental involvement in the academy especially at the federal level The book examines today s most serious issues in

higher education including free speech and academic freedom tuition and other costs culture and curricula governance gender race and diversity due process admissions student loans and much more It diagnoses problems and identifies solutions For example the total cost of college per student in the United States is now higher than in any other country When combining the monetary costs of college with the opportunity costs of losing years of labor to the economy the true cost of higher education to American society well exceeds one trillion dollars annually Yet despite American higher education s immense price tag students are learning less than ever before and continue to be underemployed The book discusses the three I s of university reform information incentives and innovation Without information it is impossible for taxpayers and governing authorities to ensure that public education spending truly furthers the broader interests of society rather than the narrow interests of faculty and administrators Shaping incentives for management would help to reduce costs and improve quality Business practices such as Responsibility Centered Management RCM for example allow profit to motivate efficiency and encourage learning outcomes And expanding the use of innovation in technology and open online courses along with relinquishing old rules such as tenure and three month summer vacations offer new hope for institutions of higher education The book discusses such additional reforms as the following Ending or revising the federal student financial aid program Giving departments or even professors a share of overall revenue based on student enrollments in their classes Departments or professors would then be required to pay their share of travel building rental maintenance utilities and other such costs from the revenues they receive Providing earnings data on former students by college five ten or fifteen years after matriculation Prospective students and parents as well as lawmakers and oversight officials would be assisted regarding school successes and failures Increasing faculty teaching loads Instituting three year degrees and year round instruction Ending discrimination against for profit schools Ending grade inflation Ending speech codes and other barriers to academic freedom Ending affirmative action and related diversity programs And more

Trouble at the Bar Clifford Winston, David Burk, Jia Yan, 2021-03-02

Deregulating the legal profession will benefit society by improving access to legal services and the efficacy of public policies Lawyers dominate a judicial system that has come under fire for limiting access to its services to primarily the most affluent members of society Lawyers also have a pervasive influence throughout other parts of government This is the first book offering a critical comprehensive overview of the legal profession s role in failing to serve the majority of the public and in contributing to the formation of inefficient public policies that reduce public welfare In **Trouble at the Bar** the authors use an economic approach to provide empirical support for legal reformers who are concerned about their own profession The authors highlight the adverse effects of the legal profession s self regulation which raises the cost of legal education decreases the supply of lawyers and limits the public s access to justice to the point where in general only certified lawyers can execute even simple contracts At the same time barriers to entry that limit competition create a closed environment that inhibits valid approaches to analyzing and solving legal problems that are at the heart of effective

public policy Deregulating the legal profession the authors argue would allow more people to provide a variety of legal services without jeopardizing their quality reduce the cost of those services spur competition and innovation in the private sector and increase the quality of lawyers who pursue careers in the public sector Legal practitioners would enjoy more fulfilling careers and society in general and its most vulnerable members in particular would benefit greatly **Marijuana Federalism** Jonathan H. Adler, 2020-03-17 On marijuana there is no mutual federal state policy will this cause federalism to go up in smoke More than one half the 50 states have legalized the use of marijuana at least for medical purposes and about a dozen of those states have gone further legalizing it for recreational use Either step would have been almost inconceivable just a couple decades ago But marijuana remains an illegal controlled substance under a 1970 federal law so those who sell or grow it could still face federal prosecution How can state and federal laws be in such conflict And could federal law put the new state laws in jeopardy at some point This book an edited volume with contributions by highly regarded legal scholars and policy analysts is the first detailed examination of these and other questions surrounding a highly unusual conflict between state and federal policies and laws Marijuana Federalism surveys the constitutional issues that come into play with this conflict as well as the policy questions related to law enforcement at the federal versus state levels It also describes specific areas such as banking regulations in which federal law has particularly far reaching effects Readers will gain a greater understanding of federalism in general including how the division of authority between the federal and state governments operates in the context of policy and legal disputes between the two levels This book also will help inform debates as other states consider whether to jump on the bandwagon of marijuana legalization *New Jersey Register* ,2013
