Geography Memorandum September 2014 Paper Grade 11:

The Rise and Rise of Illegal Ticket Touting Alessandro Moretti, 2023-02-10 This book presents an ethnographic study of contemporary ticket touts in the UK. Despite the recent interest in the topic of black market ticket sales, media coverage and parliamentary interventions over the last ten years have revealed a widespread lack of knowledge with regard to the phenomenon of touting and the players engaging in the practice. *The Rise and Rise of Illegal Ticket Touting* sheds light on the world of touting and delivers an authentic picture of the individuals involved, their methods, values, and motivations for performing ticket touting as an organised entrepreneurial deviant activity. The touts' varied methods of buying and selling tickets, the hierarchical structures and strict ethos of their criminal organisations, and their specific *modi operandi* for evading detection and arrest, both on the streets and online, are focal points of the study. Of equal importance are the touts' attitudes, perceptions, and adaptations to, or outright dismissal of, society's legal and moral frameworks. This book illuminates why historic and renewed attempts to challenge ticket touting have been unsuccessful, focusing on inadequate legislation, a lack of enforcement, and the widespread corruption and exploitable loopholes that exist within the official primary ticket market. An accessible and compelling read, *The Rise and Rise of Illegal Ticket Touting* will appeal to students and scholars of criminology, sociology, social policy, policing, and all those with an interest in live music and sport, and the hidden practices that lurk beneath the surface.

America's Moment Rework America, 2015-06-15 It is time for a new conversation. Amid the biggest economic transformation in a century, the challenge of our time is to make sure that all Americans benefit from the wave of digital revolutions around the world that have permeated and upended modern life. Yet today's economic arguments seem stuck. We need a new vision of a hopeful future and a new action agenda. So many Americans are uncertain about the future. How can there be so many paths to opportunity with so few people traveling them? As a nation, we have to understand what is required to help Americans succeed now and how to prepare our country for what comes next. We have been here before. A hundred years ago, America experienced the greatest economic transformation and technological revolution in its history. The transformation of the past twenty years, as the world has moved through the information era into the digital age, has turned our life and work upside down once again. It is a time of tremendous change but also of tremendous possibility. Rework America is a group of American leaders who know from experience the challenges we face and the potential solutions. In *America's Moment*, they suggest a practical agenda for an exciting future. It is illustrated by people who are already showing the way and includes actions Americans can take today in their own communities, preparing people to succeed using the reach of the Internet and data to innovate jobs and to reach new markets all over the world, using technology to match employers and workers and transitioning to a no-collar working world, neither blue-collar nor white-collar. Set against the history of how Americans succeeded once before in remaking their country, *America's Moment* is about the future. It describes how the same forces of change—technology and a networked world—can become tools that can open
