Full Spectrum Elena Manferdini, Jasmine Benyamin, 2023-12-18 Colour is architecture's sharpest tool in the box It has indexed everything from the feminine cosmetic

and vulgar to the pure intrinsic and embodied Colour has played a central role in the history of architecture From the polychromy of the ancients to the great white interiors of high modernism The figurative flourishes of postmodernism to the embedded sublime of contemporary building systems and facades In contemporary architecture colour has emerged as something powerful both a mode of working and a political proposition The second digital age has brought a fundamental shift in how architects engage colour Employing the full range of colour puts forth a projective mode of action It aids the democratisation of visual culture opening the field to enable subjectivities bring in new references and embrace new voices This book explores the function of colour in contemporary architecture and argues it is not to present a vision of an idealised other world but to prompt new imaginaries Take in the full spectrum Features 100 Architects Maya Alam David Batchelor Galo Canizares Courtney Coffman Fala Atelier Marcelyn Gow Sauerbruch Hutton Sam Jacobs Carolyn Kane Guto Requena Paulette Singley Amanda Williams and Mimi Zeiger A University Education David Willetts,2017-11-17 Universities have a crucial role in the modern world In England entrance to universities is by nation wide competition which means English universities have an exceptional influence on schools a striking theme of the book This important book first investigates the university as an institution and then tracks the individual on their journey to and through university In A University Education David Willetts presents a compelling case for the ongoing importance of the university both as one of the great institutions of modern society and as a transformational experience for the individual The book also makes illuminating comparisons with higher education in other countries especially the US and Germany Drawing on his experience as UK Minister for Universities and Science from 2010 to 2014 the author offers a powerful account of the value of higher education and the case for more expansion He covers controversial issues in which he was involved from access for disadvantaged students to the introduction of 9 000 fees The final section addresses some of the big questions for the future such as the the relationship between universities and business especially in promoting innovation He argues that the two great contemporary trends of globalisation and technological innovation will both change the university significantly This is an authoritative account of English universities setting them for the first time in their new legal and regulatory framework

**Testing Times** Willis Richard,2014-02-07 This book focuses on the delivery of public examinations offered by the main examining boards in England since Victorian England The investigation reveals that the provision of examinations was as controversial in the nineteenth century as it is today particularly since the government is now determined to bring in reform The issues of grade inflation the place of coursework in marking and the introduction of technological change all feature in this book Educational policy is primarily examined as well as some reference to the global scene The study analyses archival material from a wide range of sources including those records stored at the National Archives and the London Metropolitan Archives An emphasis is placed upon the various institutions that contributed to the process including the Royal Society of Arts the London Chamber of Commerce the City of Guilds of London Institute and the University of London Attention is given

to the findings of the Taunton Commission and the Bryce Commission and shorter reports such as the Northcote Trevelyn Report which served to radicalise entry and recruitment to the Civil Service The modern GCSE and the plans for I levels are considered and key observations are made about the efficacy of those examinations offered by Oxford and Cambridge universities and O levels A levels and NVQs The reader is given every opportunity to benefit enthusiastically in this account of examinations and those engaged in education whether teachers examiners students or administrators will be able to gain useful insights into the workings of the examination system

**24-Hour Cities** Hugh F. Kelly,2016-07-15 Winner of the Gold Award in the Tenth Annual Robert Bruss Real Estate Book Competition 24 Hour Cities is the very first full length book about America s cities that never sleep Over the last fifty years the nation s top live work play cities have proven themselves more than just vibrant urban environments for the elite They are attracting a cross section of the population from across the U S and are preferred destinations for immigrants of all income strata This is creating a virtuous circle wherein economic growth enhances property values stronger real estate markets sustain more reliable tax bases and solid municipal revenues pay for better services that further attract businesses and talented individuals Yet just a generation ago cities like New York Boston Washington San Francisco and Miami were broke financially and physically scarred by violence and prime examples of urban dysfunction How did the turnaround happen And why are other cities still stuck with the hollow downtowns and sprawling suburbs that make for a 9 to 5 urban configuration Hugh Kelly s cross disciplinary research identifies the ingredients of success and the recipe that puts them together

**Military Weapons and Environment** Wing Commander (Dr) Umesh Chandra Jha,2017-10-15 Armed conflicts have become more complicated with the emphasis shifting towards new weapons such as drones cybercrime and autonomous weapons In July 2017 the UN General Assembly adopted the Treaty on the Prohibition of Nuclear Weapons This treaty prohibits a full range of nuclear weapon related activities such as undertaking to develop test produce manufacture acquire possess or stockpile nuclear weapons or other nuclear explosive devices as well as the use or threat of use of these weapons The ongoing conflicts have shown that the consequences of the use of explosive weapons are not limited to death physical injury and disability but also include long term impacts on mental well being The use of improvised weapons by States and non State actors is an area of concern for the environment Every State must therefore ensure that weapons used by their armed forces are explicitly adjudged under International Humanitarian Law IHL and Human Rights Law While reviewing a new weapon the States must adopt multilateral approaches drawing upon relevant legal health environmental and military expertise This book describes the environmental effects of eight weapons and explosive remnants of war that have caused extensive environmental harm in the recent past It also makes specific recommendations addressed to the international community and the States for protecting the natural environment from the impact of weapons of war This book will contribute towards a better understanding of the environmental harm caused by military weapons
