Travel, Tourism, and Identity Gabriel R. Ricci, 2017-09-29 *Travel Tourism and Identity* addresses the psychological and social adjustments that occur when people make contact with others outside their social cultural or linguistic groups Whether such contact is the result of tourism seeking exile or relocating abroad the volume s contributors demonstrate how one s identity cultural assumptions and worldview can be brought into question In some cases the traveller finds that bridging the social and cultural gap between himself and the new society is fairly easy In other cases the traveller discovers that reorienting himself requires absorbing a new cultural history and traditions The contributors argue that making these adjustments will surely enhance the traveller s or tourist s experience otherwise the traveller or tourist will be at risk of becoming a marginalized figure one disconnected from the society that surrounds him This latest volume in the Culture Civilization series features a collection of essays on travel and tourism The essays cover a range of topics from historical travels to modern social identities They discuss ancient travels contemporary travels in Europe Africa and sustainable eco tourism and the politics of tourism Essays also address experiences of Grenada s Spice Island identity and the effects of globalization and migrations on personal identity
