(Lesson 23, Exercise File 1)**

The following helpful tips are numbered to correspond with the exercise number to which they refer within the Green & Salkind text:

Instead of identifying these values on your output, as the text states, write them into your Word file as written answers for #6 a, b, c, and d. (2 pts for output and 2 pts each for a-d)

All homework "Results sections" must follow the example given in the Course Content document "Writing Results of Statistical Tests in Current APA Format" (Note: you do not have to refer to a figure). (4 pts)

You will create the boxplot here instead of in the Results section. (2 pts)

Part 2:

A counseling psychologist administers an interview assessment that screens for possible internet addiction to his adolescent clients who live in a rural area. He assumes that children in this area may exhibit *higherscores* than children in the general population, who normally score a 25 on a scale of 1-100. The table below shows the scores the counselor has collected.
