

Week 1

Diagnostics / Review

Part 1: Diagnostics

- Take the free diagnostics for all subjects:
 - Math
 - Grammar
 - Vocabulary
 - Biology

 - Anatomy & Physiology (AAP)

Review your results:

For topics where you scored well, check those the answers and try some additional practice to strengthen the skills you've gained.

For topics where you scored lower, read your answers in detail, identify and note them down. For all of the material covered in review throughout the month leading up to your exam.

For the other week to still have study resources that support you, if you score 80% or above on a test, it means you've done better than 20% of test takers. So, you may still need your study resources to reinforce your knowledge.

You can also check topics which you scored lower on the diagnostics to see what a score would get so that you have more time to work them.
