**Mathematics Education in East Africa** Anjum Halai, Geoff Tennant, 2016-03-08 This Open Access book is a valuable resource for policymakers and practitioners as it brings insights mainly from developing countries where relatively less research activity takes place It is also a valuable resource for courses in mathematics

education in the teacher education colleges and departments of education in the sub Saharan Africa region In the increasingly global and technological world mathematics is seen as a significant gatekeeper of opportunities for social and economic advancement and mobility Hence countries and development agencies in the broader sub Saharan Africa region are looking towards increasing access to relevant and high quality secondary education as a lever towards economic development Policy makers and other key decision makers in education look towards improvement in mathematics teaching and learning as a key focus in education reform In the East Africa region also a number of initiatives have been taken at the national level in the respective countries to improve the quality of mathematics education This book provides an in depth comparative analysis of the developments and issues in mathematics education in Kenya Tanzania Rwanda and Uganda and advances our understanding of the state of secondary mathematics education in East Africa Postmodern Reading of Contemporary East African Fiction Andrew Nyongesa, 2024-02-29 This book likens writers incessant focus on racism negative ethnicity patriarchy and social stratification in societies to a naive physician who prescribes analgesics to treat symptoms while the underlying cause of the disease seethes in the blood In the same way persons who consistently blame their reckless conduct and shabbiness miss the point if they do not transform the actual cause of the problem the mind While most literary scholars problematise gender disparities racial and political othering oppression environment degradation education matters poor parenting and governance they tend to disregard the root cause modernism This book finds a gap in this grey area to address the authentic cause of the symptoms that most literary writers and scholars treat Pertinent modernist tenets such as bureaucracy the nation state systematisation and rationality and dualism are at the heart of racism corruption and other aforementioned symptoms It is the contention of this study that postmodernism offers a comprehensive understanding of modernism to mitigate its effects on society
