Mars Renaissance Volume 1:

Mars Matthew Ellis, 2014-11-11 Earth in 2086 is under complete corporate control Even air and water are controlled by corporations It is illegal to remove resources from one area and move them elsewhere if the same corporation does not control both areas The governments of Earth are powerless to stop this They are too corrupt and dependant on contributions and bribes to change the system The corporations have succeeded in enslaving humanity through currency manipulation Scout and his group want to begin a new society free from currency The problem is that this new society is completely illegal Even if it wasn't it would require the whole world to change So Scout and his group leave the Earth to colonize Mars But the military industrial complex will not allow this new colony to flourish without a fight

Aristotle's Problemata in Different Times and Tongues Pieter de Leemans, Michèle Goyens, 2006

Mediaevalia Lovaniensia 39 Communication leads to an evolution of knowledge and the free exchange of knowledge leads to fresh findings In the Middle Ages things were no different The inheritance of ancient knowledge deeply influenced medieval thought The writings of ancient Greek philosophers such as Aristotle reached medieval readers primarily through translations Translators made an interpretation of the source text and their translations became the subject of commentaries An understanding of the complex web of relations among source texts translations and commentaries reveals how scientific thinking evolved during the Middle Ages Aristotle's Problemata a text provoking various questions about scientific and everyday topics amply illustrates the communication of ideas during the transition between antiquity and the Renaissance

The Coming of the Book Lucien Febvre, Henri-Jean Martin, 1997 Books and the printed word more generally are aspects of modern life that are all too often taken for granted Yet the emergence of the book was a process of immense historical importance and heralded the dawning of the epoch of modernity In this much praised history of that process Lucien Febvre and Henri Jean Martin mesh together economic and technological history sociology and anthropology as well as the study of modes of consciousness to root the development of the printed word in the changing social relations and ideological struggles of Western Europe

Notes on books Longmans, Green and co, 1903

Localizing Christopher Marlowe Arata Ide, 2023 This study punctures the stereotyped portrayals of Marlowe first created by his rival Robert Greene and yet which still colour our view In doing so Ide reveals the social and cultural discourses out of which such myths emerged We know next to nothing about the life of the playwright Christopher Marlowe b 1564 d 1593 Few documents survive other than his birth record in the parish register a handful of legal cases in court records Privy Council mandates and reports to the Council the coroner s examination of his death and a few hearsay accounts of his atheism With such a limited collection of biographical documents available it is impossible to retrieve from history a complete sense of Marlowe However this does not mean that biography cannot play a significant role in Marlowe studies By observing the details of the specific places and communities to which Marlowe belonged this book highlights the collective experiences and concerns of the social groups and communities with which we know he was personally and financially involved Specifically Localizing Christopher Marlowe reveals the political and cultural dynamics in the community of Corpus

Christi College Cambridge into which Marlowe was deeply integrated and through which he became affiliated with the circle of Sir Francis Walsingham mapping these influences in both his life and works

Flowers of Battle, Volume III Gregory D. Mele,Ken Mondschein,2018-12-31 The warriors of medieval Italy practised a complex and complete martial art which included the wielding of sword axe and spear with wrestling knife fighting and mounted combat In the waning years of the 14th century Fiore dei Liberi was a famed master of this art whose students included some of the most renowned and dangerous fighting men of his day Credited by fencing historians as the father of Italian swordmanship toward the end of his life Master Fiore preserved his teachings in a series of illustrated manuscripts four of which have survived to the present day and have become the basis of a worldwide effort to reconstruct this lost martial art This magnum opus Il Fior di Batalgia The Flower of Battle composed in early 1409 is one of the oldest most extensive and most clearly elucidated martial arts treatises from the medieval period Freelance Academy Press is proud to present Flowers of Battle a multi volume series of lavishly illustrated hardcover books combining full color facsimiles of the Master s original manuscripts professional annotated translations and extensive peer reviewed essays Volume III Florius de Arte Luctandi presents a translation transcription and reproduction of chronologically the last most recently discovered and visually most lush Flower of Battle manuscript This posthumous work raises more questions than it answers for whom was the manuscript created and why Why was it translated into a complex humanistic Latin and from what prior source Why are there clear nomenclatures and instruction differences between this and the other three manuscripts and do these changes reflect an evolution in the Master s thinking or errors in transmission Mondschein and Mele tackle these questions and more in a lavishly illustrated introduction that seeks to set the manuscript in context as an objet d art as an example of Renaissance patronage and as a practical martial arts memorial
