*Intermediate Algebra*, 2004      **Elementary and Intermediate Algebra** Stefan Baratto, Barry Bergman, 2007-02 A Unified  
Text That Serves Your Needs Most colleges offering elementary and intermediate algebra use two different texts one for each  
course As a result students may be required to purchase two texts this can result in a considerable amount of topic overlap  
Over the last few years several publishers have issued combined texts that take chapters from two texts and merge them into  
a single book This has allowed students to purchase a single text but it has done little to reduce the overlap The goal of this  
author team has been to produce a text that was more than a combined text They wanted to unify the topics and themes of  
beginning and intermediate algebra in a fluid non repetitive text We also wanted to produce a text that will prepare students  
from different mathematical backgrounds for college algebra We believe we have accomplished our goals For students  
entering directly from an arithmetic or pre algebra course this is a text that contains all of the material needed to prepare for  
college algebra It can be offered in two quarters or in two semesters The new Review Chapter found between chapters 6 and  
7 serves as a mid book review for students preparing to take a final exam that covers the first seven chapters Finally we have  
produced a text that will accommodate those students placing into the second term of a two term sequence Here is where the  
Review Chapter is most valuable It gives the students an opportunity to check that they have all of the background required  
to begin in Chapter 7 If the students struggle with any of the material in the Review Chapter they are referred to the  
appropriate section for further review      *Elementary and Intermediate Algebra*, 2000      *Elementary & Intermediate*
