

An aerial, isometric view of a large shipping yard or port. The yard is filled with numerous rows of intermodal containers in various colors, including red, blue, white, and green. The containers are arranged in neat, parallel lines, creating a strong sense of perspective and depth. The ground between the rows is a light brownish-tan color. The overall scene depicts a busy and organized logistics hub.

Maritime Terrorism and Piracy in the Indian Ocean Region Awet Weldemichael,Patricia Schneider,Andrew Winner,2017-10-02 Unregulated or lesser regulated maritime spaces are ideal theatres of operation and mediums of transportation for terrorists insurgents and pirates For more than a decade the Indian Ocean waters adjoining Somalia have been a particular locus of such activities with pirates hijacking vessels and Al Qaeda and Al Shabab elements travelling between Africa and the Arabian

Peninsula operating lucrative businesses and even staging deadly operations at sea These operations and threats however remain by and large understudied Responses to the two threats have varied highlighting the lack of cohesive regional and global institutions with the mandate and the capacity to address them Those scholarly deliberations on Indian Ocean maritime security focus on piracy and armed robbery at sea while their terrorist insurgent counterparts have eluded sustained scrutiny This volume will help close that gap by looking at both from the field in Somalia and Yemen within broader frameworks of regional maritime security and port state control international maritime law and the ongoing search for maritime resources The European African and Middle Eastern case studies add salience to the regional and international complexity surrounding maritime security off the Horn of Africa This book was originally published as a special issue of the Journal of the Indian Ocean Region Managing Human Resources in the Shipping Industry Jiangang Fei,2018-04-17 Each industry faces unique human resource management challenges and opportunities and in shipping these include a global labour market and global unionism long periods spent at sea and health and safety issues resulting from a variety of risks This book explores all the key aspects of human resource management in the shipping industry and how they specifically relate to the shipping workforce The book also discusses the practices and issues associated with recruitment training and development and retention of personnel and knowledge in the shipping industry In addition the book addresses the human resource management challenges faced by the industry including achieving work life balance maintaining employee health and wellbeing managing risk and crisis and applying knowledge management principles With case studies in chapters exploring how the principles have been put into practice in the real world and discussion questions to prompt further enquiry this book will be of great interest to students and academics of maritime studies and human resource management more broadly as well as professionals in the shipping industry A Digest of Cases Relating to Shipping, Admiralty, and Insurance Law Reginald Godfrey Marsden,1899 *English Ruling Cases* Robert Campbell,1916 *Ruling Cases* Robert Campbell,1898 *Marsden's Digest of Cases Relating to Shipping and Marine Insurance* Reginald Godfrey Marsden,1927 **The Law of Shipping, and Merchants' and Shipmasters' Guide** Francis B.
