

To remove the Eina from its case

(for free-arm models):

1. Remove the screws at the bottom. Keep them in the accessory box for use again, if necessary (for example, for shipping your Eina):
2. Open the flap.
3. Remove the cover.
4. Remove the foot control and cord, then the machine and the accessory box.
5. To have a large sewing surface, use the cover as a **sewing table**.

N.B. When closing the case, place the cover horizontally (see 3 above), resting it on the support (a) so that the cover slides into the groove. Lower the lid and close the flap.

The following are already on the machine for normal sewing:

6. A sewing foot for ordinary straight and zigzag seams.
 7. No. 80 needle (medium size).
 8. The thread tension is set at "universal tension", red number 5.
- The foot pressure does not have to be regulated, it is universal and balanced at the factory to serve for thin or thick materials.
