Bertolt Brecht once worried that how we feel about the victims of a social problem can get in the way of the beauty and attraction of the problem itself In this book Walter Benn Michaels explores the same dilemma through a study of several contemporary artist photographers whose work speaks to questions of political economy Michaels focuses on the work of several artists mostly born in the 1970s and thus raised in a world where artistic ambition has been identified with a critique of autonomous form and of meaning as a function of intention Michaels shows that these artists engage but also push beyond this critique of autonomy and intentionality producing works that embody a new commitment to form and meaning The explanation for this commitment he argues is these artists consciousness of making art in an economy riven by structural conflict especially an unprecedented rise in inequality For them he argues the relationship of the art work to the worldto its subject and to its beholderfunctions as an emblem of the relation between classes rather than identities or subject positions This book will join the short shelf of essential writings about the medium of photography *HHhH* Laurent Binet,Sam Taylor,2012 Imagines the story of two Czechoslovakian partisans responsible for assassinating the Butcher of Prague Reinhard Heydrich traces their escape from the Nazis and recruitment by the British secret service *Lessons and Legacies XII* Wendy Lower,Lauren Faulkner Rossi,2017-02-15 *Lessons and Legacies XII* explores new directions in research and teaching in the field of Holocaust studies The essays in this volume present the most cutting edge methods and topics shaping Holocaust studies today from a variety of disciplines forensics environmental history cultural studies religious studies labor history film studies history of medicine sociology pedagogy and public history This rich compendium reveals how far Holocaust studies have reached into cultural studies perpetrator history and comparative genocide history Scholars laypersons teachers and the myriad organizations devoted to Holocaust memorialization and education will find these essays
