Mastering Communication in Contemporary America Melvin Lawrence DeFleur, Patricia Kearney, Timothy G. Plax, 1993 This text discusses the nature and application of the principles of human communication It addresses both interpersonal and mass communication and explores critical similarities and differences between animal and human communication The first eight chapters provide students with a strong foundation of the concepts and research supported theories The second half of the book uses this foundation to focus on practical applications including influencing others coping with conflicts and speaking before a group *Encyclopedia of Interior Design* Joanna Banham, 1997-05-01 From ancient Greece to Frank Lloyd Wright studiola to smoking rooms chimney boards to cocktail cabinets and papier m ch to tubular steel the Encyclopedia of Interior Design provides a history of interior decoration and design from ancient times to the present day It includes more than 500 illustrated entries covering a variety of subjects ranging from the work of the foremost designers to the origins and function of principal rooms and furnishing types as well as surveys of interior design by period and nationality all prepared by an international team of experts in the field Entries on individuals include a biography a chronological list of principal works or career summary a primary and secondary bibliography and a signed critical essay of 800 to 1500 words on the individual s work in interior design The style and topic entries contain an identifying headnote a guide to main collections a list of secondary sources and a signed critical essay *World Dredging & Marine Construction*, 1975 *Restraint & Surrender* Sarah Anne McNear, Allentown Art Museum, 1994 *Landscape of Migration* Ben Nobbs-Thiessen, 2020-03-19 In the wake of a 1952 revolution leaders of Bolivia s National Revolutionary Movement MNR embarked on a program of internal colonization known as the March to the East In an impoverished country dependent on highland mining the MNR sought to convert the nation s vast undeveloped Amazonian frontier into farmland hoping to achieve food security territorial integrity and demographic balance To do so they encouraged hundreds of thousands of Indigenous Bolivians to relocate from the overcrowded Andes to the tropical lowlands but also welcomed surprising transnational migrant streams including horse and

buggy Mennonites from Mexico and displaced Okinawans from across the Pacific Ben Nobbs Thiessen details the multifaceted results of these migrations on the environment of the South American interior As he reveals one of the migrants with the greatest impact was the soybean which Bolivia embraced as a profitable cash crop while eschewing earlier goals of food security creating a new model for extractive export agriculture Half a century of colonization would transform the small regional capital of Santa Cruz de la Sierra into Bolivia s largest city and the diverging stories of Andean Mennonite and Okinawan migrants complicate our understandings of tradition modernity foreignness and belonging in the heart of a rising agro industrial empire

The Meaning of Gravity Alexander Helmlinger,Zoe Lemelson,2023-12-02 Luhz Press presents The Meaning of Gravity the first monograph of collage works by Ken Graves Ken Graves created hundreds of collages from the mid 1970s until his passing in 2016 using medical journals technical manuals advertisements and found objects Highly influenced by Surrealism s aim to reveal the subconscious through dream like scenes he reconfigured the material of popular culture to unveil the social undercurrents embedded in commercial imagery Graves collages examine the tension of societal roles from intimate relationships to duty to one s sex or station and masterfully reveals the hidden rituals that have been erected to create and maintain a set of social orders Yet each scene resists finality presenting work that is fluid contingent and inquisitive While Graves reputation as a photographer precedes him the artist s rarely seen collage work complements his photography revealing an artist who engaged with the politically charged climate of late twentieth century America not only by documenting it but also by reimagining it
