

Short Essay

Kalpana Chawla: The First Indian Woman In Space

Kalpana Chawla was an inspiring astronaut who became the first Indian woman to fly in space. She was born on March 17, 1962, in Karnal, Haryana, and from a young age, she had a passion for flying. She moved to the United States to pursue her dream, studying aerospace engineering and eventually earning a Ph.D.

Kalpana's dedication and hard work led her to become part of NASA. Her first space mission was on November 19, 1997, aboard the Space Shuttle Columbia. During this mission, she helped conduct important experiments and contributed to scientific advancements.

In 2003, Kalpana flew on her second mission aboard the Space Shuttle Columbia. Sadly, on February 1, 2003, the shuttle broke apart during re-entry, and she and her crew lost their lives. Despite this tragedy, Kalpana's legacy lives on. She inspired many young girls and boys to follow their dreams, showing that with hard work and determination, anything is possible.

Kalpana Chawla's life reminds us that dreams have no boundaries, and she will always be remembered as a true hero who reached for the stars.
