Design Despite its age it is the favorite of amateur aircraft designers because it sits on the cusp between propeller driven low
subsonic airplanes and the huge increase in military performance represented by supersonic and hypersonic aircraft and in
commercial value represented by high subsonic jet propelled airliners It is also situated inside the early heroic period of
helicopter development and Wood s knowledge of that then exotic aircraft comes out clearly He still includes wood as an
aircraft material and geodetic structures and tube trusses as structural arrangements without neglecting the monocoque and
semi monocoque metal structures that were then becoming more common He also covers seaplanes and flying boats a topic
essentially ignored today He recognizes the potential of fiber reinforced plastics and discusses them to the extent possible at
the time This is the companion volume to K D Wood s Technical Aerodynamics third edition This improved facsimile reprint
