Kangzhan Leland Ness, Bin Shih, 2016-09-16 *Kangzhan Guide to Chinese Ground Forces 1937-45* is the first ready reference to the organization and armament of Chinese ground forces during the Sino Japanese War of 1937-45 The work integrates Chinese Japanese and Western sources to examine the details of the structure and weapons of the period Recent scholarship has contributed greatly to our understanding of China's role in the war but this is the first book to deal with the bottom level underpinnings of this massive army crucial to an understanding of its tactical and operational utility An introductory chapter discusses the military operations in China often given short shrift in World War II histories The work then traces the evolution of the

national army's organizational structure from the end of the Northern Expedition to the conclusion of World War II. Included are tables of organization and strength reports for the wartime period. The armament section illustrates and details not only the characteristics of the many and varied weapons used in China, many seen nowhere else, but also their acquisition and such local production as was undertaken. This is complemented by a chapter on the arsenals and their evolution and production programs. The Chinese army was one of the largest of the war and it and Japan's fought longer than any other. It faced unique challenges including fragmented loyalties, huge expanses of territory, poor logistics networks, inadequate arms supplies, and often incompetence and corruption. Nevertheless, they fought bravely in major battles through 1941 and were able to counterpunch effectively in important regions through the rest of the war. Aimed at both military historians and wargamers, this work fills an important gap in our understanding of this, the most underappreciated army of the war.

Investment Banking and Investment Opportunities in China K. Thomas Liaw, 2007-09-10. Praise for Investment Banking: Investment Opportunities in China. I first met Tom Liaw when my company was exploring potential opportunities in Taiwan. He clearly knew the market and proved invaluable in explaining the financial landscape and in arranging meetings with potential clients, other market participants, and senior government officials. Investment Banking and Investment Opportunities in China should prove equally valuable as we now look to further expand our activities to mainland China. Douglas Reinfeld Miller, EVP, Ambac Assurance and Chairman, CEO, Ambac Assurance UK Ltd. There is no more important market than China today. Dr. Liaw's book provides an overview of the current situation and recommendations as to how investors can profit from China's amazing growth. Donald Tang, Chairman, Bear Stearns Asia Ltd. and Vice Chairman, Bear Stearns Co. Inc. Professor Liaw's book takes you on a quick walk through the major milestones in China's economic development over the past two decades. It shows a clear understanding of the environment for doing business in China and explains hot topics in the marketplace. This book is simple, easy to read, and yet highly informative. Jesse Wang, Vice Chairman, China Central SAFE Investments Ltd. and Chairman, China International Capital Corporation Ltd. Provides a clear map of China's financial system, investment banking business, and investment opportunities. It should be read by all who are interested in China. Mao Wei Hung, Dean, College of Management, National Taiwan University. Dr. Liaw's book is a comprehensive professional reference work for those of us involved in the global investment arena. I highly recommend it. Charles P. Menges, Jr., CFA, Principal, Business Global Wealth Management, a Unit of Alliance Bernstein LP. China's development has a unique track, including the financial market. People who want to profit from China should have a clear view of this market. Dr. Liaw's book explaining China's market opening and foreign participation is the one necessary for them to read. Wei Xing, Director of Rules and Regulations, China Insurance Regulatory Commission. *The Chinese Recorder Index* Kathleen L. Lodwick, 1986. The Chinese Recorder Index is the only complete index and research guide to the Chinese Recorder and Dictionary. Recorder. The core of this monumental work is three separate indexes. The Persons Index includes every

individual who is mentioned at least four times over the run of the journal Index entries for each person are keyed to indicate the location of such biographical information as his or her title denominational affiliation dates and locations of service in China and names of spouse and children as well as any articles he or she contributed to the Recorder The Missions and Organizations Index includes references to mission locations personnel finances converts made attacks sustained and other data and to hospitals schools opium refuges and orphanages The Subject Index includes references to the many topics covered in the Recorder Following these indexes are lists that provide quick reference to specific information such as persons and missions by location women and medical doctors
