Life Orientation Grade 9 Examination Scope 2014:

The Routledge International Handbook of Life and Values Education in Asia John Chi-Kin Lee, Kerry J Kennedy, 2024-06-28

This Handbook provides a comprehensive look at the educational scope of life and values that characterize 21st century Asia as well as those values shared across cultures. Some values are deeply resonant with the region's past while others reflect modernity and the new contexts in which Asian societies find themselves. Exploring these values of different types and the way they are constructed in Eastern and Western contexts, the contributors delve into the diversity of religious, moral, and social education to promote greater understanding across cultures. While a range of values is identified here, there is no single set of values that can be applied to all people in all contexts. The time has long gone even for single societies when values can be imposed. Yet this Handbook emphasizes both the extent and importance of values to individuals and their societies; how they respond to these values may provide the key to better and more caring societies and to better lives for all. Academics and teachers will find this Handbook resourceful because it raises important theoretical issues related to social values and their formation in distinctive contexts and provides novel insights into the diverse educational landscape in Asia. Policymakers and educators will also find this text helpful in learning to think about new ways to improve the quality of people's lives.

Marital Rights Robert Leckey, 2017-07-05. This volume gathers influential and cutting edge scholarship on the international and domestic rights attaching to married couples and other adult relationships. Addressing examples from the European Court of Human Rights, UK, USA, Canada, Australia, and South Africa, it traces contentious debates about the content of marital rights and responsibilities and whether law should reach beyond marriage and if so how. Twenty four essays and a substantial introduction highlight the complexity and contradictions as marital law grapples with gender equality, the aftermath of recognizing gay and lesbian rights, abiding economic inequalities, and exotic issues such as forced marriage and polygamy.
