Triumph Over Trauma Gloria C. Lindsay, 2006-12-29 This book has been on my mind for many years My daughter lost oxygen at birth and had to be placed in intensive care By working with her to help her excel intellectually and physically I have learned that babies and toddlers can absorb far greater knowledge and understanding than many of us realize Indeed learning does begin in infancy and we as parents can greatly enhance this process My baby experienced birth trauma but the opportunities are there whether your child has trauma or has a completely normal birth All the unbounded possibilities exist through teaching your little one the joy of learning as a lifelong habit This book illustrates what can be done

A Prospectus for the Triumph of Realism Thomas A. Russman, 1987 Thomas A Russman argues forcefully that it is now possible to return in a new way to the once familiar ground of epistemological realism the pre Cartesian view that things themselves are knowable through perception and that such knowledge is foundational This view has been rejected by most contemporary philosophers who follow the path outlined convincingly by the likes of Wilfrid Sellars Willard Quine Thomas Kuhn and Richard Rorty Recognizing that any return to philosophical realism must deal with the criticisms raised by these prominent philosophers Professor Russman offers his own incisive critique of a contemporary myth what Karl Popper called the myth of the framework which replaced the earlier myth of the given as Wilfrid Sellars named it in his attack on realism The battle between these two myths is according to

Professor Russman a battle to the death he believes that the observation framework is the abode of permanent truths about the world He proceeds to explain why the current assumption to the contrary arose and why it is wrong Then he shows how the informal foundationalism that he proposes can avoid the philosophical pitfalls of the earlier formal foundationalism in allowing for political toleration and artistic freedom it works better than pragmatism as a general epistemology and it supports a dynamic nonreductive view of human nature Thomas Russman earned an M A in Philosophy from The Catholic University of America and a Ph D in Philosophy from Princeton University He teaches philosophy at the University of St Thomas in Houston
