Other Rivers Peter Hessler, 2024-07-09 An intimate and revelatory account of two generations of students in China's heartland by an author who has observed the country's tumultuous changes over the past quarter century More than two decades after teaching English during the early part of China's economic boom an experience chronicled in his book *River Town* Peter Hessler returned to Sichuan Province to instruct students from the next generation At the same time Hessler and his wife enrolled their twin daughters in a local state run elementary school where they were the only Westerners Over the years Hessler had kept in close contact with many of the people he had taught in the 1990s By reconnecting with these individuals members of China's Reform generation now in their forties while teaching current undergrads Hessler gained a unique perspective on China's incredible transformation In 1996 when Hessler arrived in China almost all of the people in his classroom were first generation college students They typically came from large rural families and their parents subsistence farmers could offer little guidance as their children entered a brand new world By 2019 when Hessler arrived at Sichuan University he found a very different China as well as a new kind of student an only child whose schooling was the object of intense focus from a much more ambitious cohort of parents At Sichuan University many young people had a sense of irony about the regime but mostly navigated its restrictions with equanimity embracing the opportunities of China's rise But the pressures of extreme competition at scale can be grueling even for much younger children including Hessler's own daughters who gave him an intimate view into the experience at their local school In Peter Hessler's hands China's education system is the perfect vehicle for examining the country's past present and future and what we can learn from it for good and ill At a time when anti Chinese rhetoric in America has grown blunt and ugly *Other Rivers* is a tremendous essential gift a work of enormous empathy that rejects cheap stereotypes and shows us China from the inside out and the bottom up As both a window onto China and a mirror onto America *Other Rivers* is a classic from a master of the form
