Aptitude-Treatment Interaction in Second Language Learning Robert M. DeKeyser, 2021-04-21 This volume brings together seven empirical studies about aptitude treatment interactions ATI i e about how second language learners with different aptitudes match or don t match with different educational treatments and aptitude testing interactions i e about how learners with different aptitudes perform better or worse depending on the way their knowledge and skills are tested The authors are all established researchers or rising stars in the field of second language acquisition SLA who believe that little can be said about the effectiveness of teaching and testing methods or techniques without taking individual differences into account Many of the studies corroborate in SLA what has become a central finding in the psychological and educational research about ATI the more a method puts the burden of information processing on the student the bigger the role of the corresponding aptitudes The kinds of findings documented in this volume contribute to a scientific basis for the art of language teaching that will become increasingly useful as emerging technologies make adaptation to individuals and groups more feasible Originally published as special issue of Journal of Second Language Studies 2 2 2019

Verbal Interaction in Small-group Activities Daniel Stotz, 1991

Conversational Tagalog Teresita V. Ramos, 1985-04-01 Conversational Tagalog is an introductory level text that was created for adult foreign second language learners of Tagalog It is designed to give practice in idiomatic Tagalog conversation by focusing exercises on simple language functions The lessons are developed to encourage the interactional nature of communication The book provides situations that are relevant to the lives of adult students The situations force students to think about the meanings and consequences of what they say Cultural notes guide students and give them a sense of when how and with whom it is appropriate to use the forms contained in a certain set of dialog material Conversational Tagalog explores various ways of teaching language through actual and simulated activities always working toward communicative competence Grammatical explanations and exercises are based on what appears in a dialog and are not predetermined in the construction of the dialog

Conversational Interaction in Second Language Acquisition Alison Mackey, 2013-12-02 This edited collection of empirical studies examines the link between interaction and second language learning The studies provide readers with insights into a wide variety of issues at the centre of current research into the relationship between conversational interaction and second language learning outcomes
