across West African subregion is of great concern to many stakeholders In spite of stringent measures taken to curb malpractice the rate of involvement seems to be increasing geometrically It is in reaction to this worrisome trend that this study was conducted to probe into the root cause of continuous indulgence in malpractice during the examinations conducted by the West African Examinations Council WAEC in Nigeria This is with a view to measuring the public awareness level as regards the implications of involvement in examination malpractice and appealing to their moral instinct to eschew this menace using the proposed theory of awareness creation and sanction strategy SACS The study employed purposive sampling technique in selecting 10 ten states where various stakeholders in education were sampled for the administration of a questionnaire designed to gauge their knowledge of implications of involvement in examination malpractice of different forms One thousand copies 1 000 of the instrument were administered in the States of Abia Katsina Kebbi Benue Kwara Cross River Bayelsa Nasarawa Niger and Edo among the Senior Secondary three Students their teachers and parents of the same students These states were purposively selected for their high level of malpractice recorded in the examination conducted by WAEC in recent times Out of the administered copies of the instrument nine hundred and forty two 942 were retrieved for analysis
