

MPF-4245MV Instruction Manual

Thank you for purchasing the MPF MIGHTYLITE Deluxe Switching Power Supply. The MPF-4245MV is designed to supply up to 45 amps maximum current or 40 amps continuous current at 13.8 Vdc.

Installation:

Before plugging in the MPF-4245MV in an AC outlet make sure that the proper input voltage is selected on the rear of the unit. Select 115 for 100/110/120 Vac operation.

The loads can be connected to either the 5-way binding posts, to the cigarette lighter socket, or to the quick connectors on the back. Note that any devices that require more than 7 amps must use the 5-way binding post outputs. The cigarette lighter socket output has a maximum output of 7 amps. The quick connector output has a maximum output of 5 amps.

Operation:

DC Adjustment: The DC adjustment control on the front panel is used to set the DC output voltage of the MPF-4245MV from 9 volts to 16 volts DC. For most HP and VHF radios, set the output at 13.8 Vdc.

FAN: The cooling fan on the MPF-4245MV will operate when the unit is turned ON. The speed of the fan varies depending on the setting of the DC Output.

Meter Indicators: The current meter on the MPF-4245MV indicates the total current being drawn by the accessories connected to the power supply. The voltage meter on the MPF-4245MV indicates the voltage set for the 5-way binding post output, the cigarette socket output, and the quick connector output. Both meters will be lit when the unit is turned ON. Note that the brightness of the meter lights varies depending on the setting of the DC adjustment control.

Protection:

The MPF-4245MV will automatically shut off if over 45 amps of current is drawn from its outputs. To reset, turn the unit OFF and wait 20 seconds, then turn the unit back on.

The MPF-4245MV has a 250 volt, 10 amp fuse in the power cord connection on the back of the unit. The MPF-4245MV has two slots for these fuses. The slot closest to the unit locks the fuse in place and then becomes part of the circuit. The slot at the rear of the tray is a place to store a spare fuse for emergency cases.
