Computer Network Security Vladimir Gorodetsky, Igor Kotenko, Victor Skormin, 2005-09-19 This volume contains papers presented at the 3rd International Workshop on Mathematical Methods Models and Architectures for Computer Network Security MMM ACNS 2005 held in St Petersburg Russia during September 25-27, 2005. The workshop was organized by the St Petersburg Institute for Informatics and Automation of the Russian Academy of Sciences SPIIRAS in cooperation with Binghamton University SUNY USA. The 1st and the 2nd International Workshops on Mathematical Methods Models and Architectures for Computer Network Security MMM ACNS 2001 and MMM ACNS 2003 hosted by the St Petersburg Institute for Informatics and Automation demonstrated the keen interest of the international research community in the subject area. It was recognized that conducting a biannual series of such workshops in St Petersburg stimulates fruitful exchanges between the different schools of thought, facilitates the dissemination of new ideas and promotes the spirit of cooperation between researchers on the international scale. MMM ACNS 2005 provided an international forum for sharing original research results and application experiences among specialists in fundamental and applied problems of computer network security. An important distinction of the workshop was its focus on mathematical aspects of information and computer network security, addressing the ever-increasing demands for secure computing and highly dependable computer networks.
