Effective reading and learning strategies are increasingly important because of the vast amount of information you'll encounter. Beyond academic information, you must process and interpret news, instructions, communications, and a wealth of other data. You read to get new information, and you read to familiarize yourself with material you've learned before. Neither can be hurried.

Estimate your required reading time by considering the type of material assigned and whether it includes other activities such as practice or explorations. For typical textbooks, most
