The Christological Foundations for the Ministry of Intercession Joseph Melville Winger,1996 *Purgatory and Piety in Brittany 1480-1720* Dr Elizabeth C Tingle,2013-07-28 The concept of Purgatory was a central tenet of late medieval and early modern Catholicism and proved a key dividing line between Catholics and Protestants However as this book makes clear ideas about purgatory were often ill defined and fluid and altered over time in response to particular needs or pressures Drawing upon printed pamphlets tracts advice manuals diocesan statutes and other literary material the study traces the evolution of writing and teaching about Purgatory and the fate of the soul between 1480 and 1720 By examining the subject across this extended period it is argued that belief in Purgatory continued to be important although its role in the scheme of salvation changed over time and was not a simply a story of inevitable decline Grounded in a case study of the southern and western regions of the ancien r gime province of Brittany the book charts the nature and evolution of private intercessory institutions chantries obits and private chapel foundation and public forms parish provision confraternities indulgences and veneration of saints In so doing it underlines how the huge popularity of post mortem intercession underwent a serious and rapid decline between the 1550s and late 1580s only to witness a tremendous resurgence in popularity after 1600 with traditional practices far outstripping the levels of usage of the early sixteenth century Offering a fascinating insight into popular devotional practices the book opens new vistas onto the impact of Catholic revival and Counter Reform on beliefs about the fate of the soul after death

Foundation Truths. Lectures on Romans Viii. 33, 34, Preached ... During Lent, Etc John William REEVE,1875

The Medieval Chantry Chapel Simon Roffey,2007 An archaeological investigation into the structure of the medieval chantry chapel with many implications for religious practice at the time The chantry a special often private chapel within a church dedicated to a particular benefactor or benefactor s family where prayers for the benefactor s soul were said was probably the most common and also one of the most distinctive of all late medieval religious foundations These structures although much altered with time are still a very noticeable feature

of many late medieval parish churches However no systematic thorough or comparative examination has been undertaken to discover what they may reveal about contemporary devotion aspiration and planning This is a void which this book seeks to fill It shows how the use of archaeological approaches can illuminate aspects of medieval religious practice only hinted at in many historical documents it also demonstrates how the structural and spatial analysis of former chantry chapels can shed light on the level of private and communal piety and reveal a wider more universal context to chantry foundation in the medieval parish church In addition it discusses how various personal strategies for intercession shaped both chapel space and fabric and the ultimate effects of the Reformation on such structures Includes a selected gazetteer of chantry chapels Dr SIMON ROFFEY teaches in the Department of Archaeology at the University of Winchester
