Supporting Reading in Grades 6-12 Sybil M. Farwell, Nancy L. Teger, 2012-06-11 This book presents a curricular framework for students grades 6-12 that school librarians and teachers can use collaboratively to enhance reading skill development, promote literature appreciation, and motivate young people to incorporate reading into their lives beyond the required schoolwork. *Supporting Reading Grades 6-12: A Guide* addresses head-on the disturbing trend of declining leisure reading among students and demonstrates how school librarians can contribute to the development of lifelong reading habits, as well as improve students' motivation and test scores. The book provides a comprehensive framework for achieving this: the READS curriculum, which stands for Read as a personal activity, Explore characteristics, history, and awards of creative works; Analyze structure and aesthetic features of creative works; Develop a literary-based product; and Score reading progress. Each of these five components is explained thoroughly, describing how school librarians can encourage students to read as individuals, in groups, and as school communities, support classroom teachers' instruction, and connect students to today's constantly evolving technologies. Used in combination with an inquiry/information skills model, the READS curriculum enables school librarians to deliver a dynamic, balanced library program that addresses AASL's Standards for the 21st Century Learner.

The book profiles six different units of study: memoir, feature article, editorial, short story, fairy tale, and response to literature. Each study is set in an individual fifth through tenth grade classroom and is described from its theoretical foundations through the planning for the specific needs of the students to the teaching and finally evaluation.

When Writers Drive the Workshop Brian Kissel, 2023-10-10 With increasing school mandates and pressure to perform well on standardized tests, writing instruction has shifted to more accountability, taking the focus away from the writer. In his engaging book *When Writers Drive the Workshop: Honoring Young Voices and Bold Choices*, author Brian Kissel asks teachers to go back to the roots of the writing workshop and let the students lead the conference. What happens when students not only determine what they learned through reflection and self-evaluation, but also lead the conference? In *When Writers Drive the Workshop*, you'll find practical ideas, guiding beliefs, FAQs, and Digital Diversions to help visualize digital possibilities in the classroom. Written in an engaging, teacher-to-teacher style, this book focuses on four key components of writing workshop: Student-led conferring sessions where the teachers are the listeners; The Author's Chair where students set the agenda and gather feedback; Structured reflection time for students to set goals and expectations for themselves; Mini-lessons that allow for detours based

on students needs not teacher or curricula goals All students have the powerful shared need to be heard when they choose their writing topics they can see their lives unfold on the page Teachers are educated by the bold choices of these young voices
