

## HOW TO START A LUCET CORD

Starting a LUCET cord will seem a little tricky at first. With very little practice, it will become simple—honest it will! Good Videos are on-line. Google "lucet video."

### Step 1.

Start as shown. At this point, the yarn has been brought across both prongs after a little figure 8 step in the beginning.

### Step 2.

The bottom yarn is lifted over the top yarn and over the right prong. You are moving toward your first knot, but that's a little ways away.

### Step 3.

At this point, the first stage of the first knot is loosely taking shape. Keep that loose beginning of a knot more or less in the center between the prongs. Turn the LUCET over, always flipping over to the left.

### Step 4.

You are now looking at the back side (no logo). Bring the yarn straight across both prongs and above the other yarn. Again, lift the bottom yarn over the straight top yarn and over the right prong. This is always the same move.

Step 5. Take up the slack a little, center the loose knot. Turn the LUCET over to the left.

Step 6. Again bring the yarn straight across both prongs. Lift the bottom yarn over the straight yarn and the right prong. Tighten the centered knot. Turn the LUCET over.

### Step 7 and onward.

Repeat—yarn straight across both prongs, lift bottom yarn over top yarn and right prong; tighten the center knot as you do so. Turn LUCET over and repeat. A cord of knots will begin to emerge. As cord grows longer, feed it down through the hole.

*Braids* Rodrick Owen,2004 *Kumihimo Weaving Guide* Matthew Or Walker,2026-01-16 Kumihimo weaving has always fascinated me The intricate patterns and vibrant colors can transform simple threads into stunning pieces of art If you re new to this craft don t worry I ll guide you through the basics and share some personal tips that have helped me along the way First let s talk about the tools You ll need a kumihimo disk which is a round foam or wooden disk with notches around the edge I remember my first time using it I was a bit intimidated but once I got the hang of it I found it incredibly satisfying You ll also need some cords silk cotton or nylon work well I often mix different materials for texture To start cut your cords to the desired length A good rule of thumb is to make them about four times the length of the finished braid I ve learned the hard way that cutting them too short can lead to frustration Once you have your cords ready it s time to set them up on the disk Place them in the notches alternating colors for a more dynamic look Now the braiding technique It s all about the movements You ll want to lift the rightmost cord and move it to the center then do the same with the leftmost cord Repeat this process and soon you ll see your braid taking shape I often put on some music while I work it makes the process feel more like a creative escape than a task As you get more comfortable try incorporating beads into your designs This adds a whole new dimension to your work I remember the first time I added beads it felt like I was unlocking a new level in my crafting journey Just thread the beads onto your cords before you start braiding Don t be afraid to experiment with different patterns and colors There are countless tutorials online and I ve found that collaborating with fellow crafters can spark new ideas Social media platforms are great for this I ve connected with so many talented individuals who share their unique techniques Lastly remember that practice makes good Your first few attempts might not turn out as expected but that s part of the learning process Embrace the imgoodions they often lead to the most unique creations Happy weaving
